

SHUBHAM JAIN

Delhi, Mumbai | +91-8291474760 | shubhamjain752@gmail.com

Professional Summary

IIT Bombay graduate with 5+ years of entrepreneurial experience scaling FinTech and SaaS ventures. Expertise in full product development cycle, **securing \$400k in funding**, and leading 20+ member teams. Adept at leveraging generative AI for business process automation and intelligence. Passionate about driving operational excellence and contributing to P&L critical projects in fast-paced startup environments.

Professional Experience

Co-Founder & CTO, CMO

01/2024 to Current

NiryatSetu, TradeReboot Tech Pvt. Ltd.

Mumbai, India

- Executed a full **Go-to-Market Strategy** by launching NiryatSetu, a B2B SaaS platform for MSMEs, and secured **\$100,000 in angel funding** within 3 months to drive product development and GTM strategy
- Architected and directed the **full product lifecycle** of an integrated ecosystem encompassing logistics + finance + insurance services along with accounting automation & business intelligence dashboard
- Designed and shipped a full-cycle Order-to-Cash management, digitizing export workflows from enquiry to payment with industry-grade UI/UX and accounting automation **reducing order processing time by 85%** and eliminated manual errors for 20+ active exporters
- Engineered and launched **GenAI-powered Accounts Payable**, Receivable suite (OpenAI OCR, Mistral, vector DB matching, Gemini-driven dynamic JSX template) reducing manual processing for exporters by over 70%
- Architected a real-time workflow engine integrating logistics, banking, and DGFT APIs to enable 100% paperless documentation. Build workflows to monitor duty drawback, authorized license, and incentive schemes
- Authored comprehensive requirement & technical documentation for **system design** and IT frameworks, ensuring system clarity, scalability, and adherence to regulatory standards according to product requirement
- Recruited, trained, & mentored IT personnel, fostering a culture of innovation & excellence within the team
- Led digital acquisition campaigns across social platforms, organically growing Instagram from 0 to 50K+ followers while achieving 200K+ interactions with **1M+** monthly views with zero paid spend

Co-Founder & CEO

04/2022 to 01/2024

TradeReboot Fintech Pvt. Ltd.

Mumbai, India

- Scaled TradeReboot from **0 to \$50k ARR** by acquiring 450+ MSME export clients in under 12 months
- Successfully raised **\$300,000 in angel funding** by owning end-to-end investor relations
- Directed **SaaS & PaaS Development**, by building a multidisciplinary team of over 20 professionals across tech, finance, and ops to launch an innovative FinTech Solution with a Trade Finance Marketplace & Credit insurance
- Recruited senior banking VP and built institutional sales team; **signed 40+ banks & NBFCs** (HSBC, Standard Chartered, Shinhan, Kotak, ICICI, and international Factors) as lending partners on our platform
- On-boarded **125+ channel partners** (chartered accountants, customs brokers, logistics providers, insurance agencies) onto the platform spread across 40 export focus cities in India and Dubai
- Oversaw financial operations, including budgeting, forecasting, P&L management, and investor communications
- Shaped global policy on trade digitization and **green trade** as a **delegate at the WTO Public Forum** in Geneva

Manager

10/2020 to 05/2022

Tata Projects Ltd.

Noida, India

- Oversaw **Project Management** of **high-value national infrastructure projects**, including the Dedicated Freight Corridor (DFCCIL), International Transmission Lines Projects in Africa and the New Parliament Building
- Engineered **Process Optimization** by automating complex planning and reporting workflows using macros **reducing reporting turnaround time by 90%** and enhancing data accuracy for senior management
- Leveraged **Data Analytics & Business Intelligence** to develop interactive project dashboards with actionable insights, facilitating data-driven decision-making and improving project controls
- Collaborated with cross-functional teams in Planning, Finance, and Supply Chain to achieve project goals
- Optimized cash flow and working capital by strategically managing equipment procurement and lease agreements valued at **over ₹20 crores**

Analytics Intern

05/2019 to 07/2019

Daikin Industries Ltd.

Osaka, Japan

- Spearheaded the development of a core analytics platform during an international assignment to architect a core analytics platform using AWS, Python, and **NLP to automate video/audio analysis**
- Processed raw images for object detection, face detection & analysis, text detection, generating an automatized report for summarizing the analysis and results in Japanese and English languages
- Demonstrated leadership by conducting a critical **cost-benefit and feature analysis** of competing cloud services and trained a **residual neural network** on 7100+ images to enhance the application's capabilities

Education

Bachelor of Technology (B.Tech.): Civil Engineering

Indian Institute of Technology (IIT), Bombay

Mumbai

- **CGPA: 9.50** (Department Rank: 3rd | Institute Rank: 27th)
- Minor in Industrial Engineering and Operations Research (IEOR)
- **Awards:** Institute Academic Prize for Excellence, Institute Organisational Special Mention

Delhi Public School Ghaziabad

Class XII (93.2%) | Class X (GPA: 9.80)

Ghaziabad

Publications Certifications

- Jain, S., Srivastava, A., Khadke, L., Chatterjee, U. and Elbeltagi, A., 2024. Global-scale water security and desertification management amidst climate change. Environmental Science and Pollution Research, 31(49), pp.58720-58744. (Have more than **100 Citations**)
- Demystifying artificial intelligence amidst sustainable agricultural water management, Srivastava, A., Jain, S., Maity, R., Desai, V.R., Current Directions in Water Scarcity Research, 2022, 7, pp.17-35

Key Projects Initiatives

- **UAV for Autonomous Search & Rescue** (IIT Bombay): Led an 18-member software subsystem team to develop an autonomous UAV. Achieved a top ranking at the AUVSI SUAS Competition (USA) by implementing advanced **computer vision (OpenCV)** and machine learning algorithms for object detection and navigation
- **Smart Spectacles for Visually Impaired** (IIT Bombay): Conceived and developed a portable assistive device using Raspberry Pi, OCR (Tesseract), and text-to-speech technology to enable visually challenged individuals to read printed text
- **AI-Based Food Image Nutrition Predictor:** Led a team of 4 to develop an AI-powered tool that predicts nutritional information from food images, leveraging TensorFlow and a pre-trained Inception V3 model for image classification
- **Designed the public water supply scheme** and sanitation system for Vadgaon Maval (rural, Pune) conducted civil surveys to map landmarks & **elevation profiles using QGIS & Google Earth**, projected population & water demand for 2041, developing a water supply network using EPANET software

Core Competencies

- **Strategic Leadership & Management:** Business Strategy, P&L Acumen, Investor Relations, Go-to-Market Strategy, Team Building & Leadership, Change Management, Cross-functional Collaboration
- **Product & Technology:** Full Product Lifecycle Management, SaaS & PaaS Development (MERN Stack), FinTech Solutions (Payments, Lending, Trade Finance), GenAI Integration & Automation, Agile Methodologies, UX/UI Principles, Data Analytics & Business Intelligence, AWS
- **Operations & Execution:** Operational Excellence, Project Management (National Scale), Process Optimization & Automation, Financial Management (Budgeting, Forecasting), Regulatory Compliance, Technical Documentation, Startup Operations
- **Interpersonal & Communication:** Stakeholder Management, Negotiation & Persuasion, Public Speaking
